SHERLOCK HOLMES AND THE ADVENTURE OF THE SPECKLED BAND

We use CT native William Gillette's actual script, used for a broadcast in October 1930 out of NY City. (He created the character of Sherlock Holmes for the stage in 1899). In our production, 4 actors portray 7 characters (including a complete sound effects table!). It is a 1-hour presentation consisting of a 15-minute intro by producing artistic director Kandie Carle, touching on mid- 20th century radio shows in general and the discovery of the script, along with details on our production for Gillette Castle State Park, then we launch into the 30-minute 'show' where attendees become the 'studio audience', we wrap up with a Q & A.
